

# Shivom Paudel - Front End Engineer

Champaign, IL | (309) 918-9277 | shivompaudel@icloud.com

As a Front End Engineer, I am dedicated to designing aesthetic, personalized, and responsive user experiences that drive business objectives. With a focus on problem-solving and attention to detail, I strive to turn ideas into innovative products that exceed user expectations. I am committed to continuous learning and staying up-to-date with the latest technologies and frameworks to deliver the best possible solutions.

## Skills

- JavaScript (ES6+), React, TypeScript, Next, Tailwind, HTML5, CSS3
- API Design, Database Structure, UX Design, Responsive Design, Chrome DevTools
- Git, Unit Testing, Firebase, Bootstrap 5

## Experience

*Frontend Engineer | Hike Medical | Jan 2023 - June 2023*

- Improved web app efficiency by 50% and reduced user time from 30 to 15 minutes by providing clear and accessible directions through Intercom articles.
- Increased website search ranking from 5th to 1st by implementing SEO best practices, resulting in a 100% increase in customer engagement and enquiries about the product.
- Led the development of key projects, collaborated with computer vision and full stack engineers, and ensured project goals were met on time.
- Implemented responsive design, accessibility, and cross-browser compatibility in all projects, utilizing various libraries and tools, contributing to the growth and success of the healthcare startup.

*Frontend Developer Support | Frontend Simplified | Aug 2022 - Dec 2022*

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practices.
- Utilized debugging best practices using Google Chrome inspect element tooling.
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests.

*Frontend Developer Internship | Frontend Simplified | Sep 2022 - Oct 2022*

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions, and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

## Education

*Frontend Developer Bootcamp | Frontend Simplified | Aug 2022 - Sep 2022*
